EDUCATION

Sri Krishna College of Engineering and Technology

Bachelor of Engineering in Computer Science; CGPA: 8.25

Vishwa Sishya Vidyodaya School

Class XII

Coimbatore, Tamil Nadu

2023 – 2027

Pollachi, Tamil Nadu

2023

PROJECTS

Personal Portfolio Website

HTML, CSS

– Built a responsive portfolio website to showcase projects, skills, and achievements.

Live: shreeee0404.github.io/Portfolio/

Hospital Management System

React.js

– Developed a React-based system for managing doctors, patients, appointments, and records.

Completed

Interactive Online Yoga Academy

REST API

– Built an interactive yoga platform with REST APIs for users, sessions, and personalized learning.

Completed

Hotel Management System

React, Node.js, REST API, MySQL

– Developed a full-stack hotel application for booking, staff, customers, and reservations.

Completed

Smart Health & Driving Safety System (SHDSS)

Arduino, IoT, React.js

– Built an IoT-based safety system for alcohol detection, vehicle restriction, real-time monitoring, emergency alerts.

Completed

Smoke & Gas Detection System

Arduino, MQ-2 Sensor

– Built a real-time smoke and gas detection system with buzzer and LCD alerts.

Completed

AI-Powered Skill Gap Analysis & Career Recommendation System

React, Node.js, Express, MongoDB, Python, ML

– Built an AI system using TF-IDF, Random Forest, and Cosine Similarity for career prediction and skill-gap analysis.

– Generated skill-match percentages and personalized learning recommendations using MongoDB-stored profiles.

Completed

AI-Powered Emergency Response Intelligence Platform

Disaster Management & Relief Operations — AI

– Developing an AI-powered platform for intelligent emergency response and disaster management.

Ongoing

EXPERIENCE

Infosys Virtual Internship 7.0 (ongoing)

AI Domain

Virtual

Aug – Oct 2026

RR Industries Limited

Networking Intern

Chennai, Tamil Nadu

May – June 2025

ACHIEVEMENTS

Tech Savishkaar 2.0 – National Level Hackathon Winner

2025

Electrothon (Echoes of Innovation) – Finalist, Chennai Institute of Technology

2025

TECHNICAL SKILLS

Languages: C++, Java, Python, JavaScript

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend: Node.js, Express.js, Spring Boot, REST APIs

AI/ML: TF-IDF, Random Forest, Cosine Similarity

Databases: MongoDB, MySQL
